4.  The affidavit, exhibit or request for reconsideration has been considered but does not overcome the rejection because *proposed claim amendments to overcome new matter rejections raise new considerations and require new search.*

- The proposed drawing correction  has  has not been approved by the examiner.

Other amendments proposed for claims 5, 8, & 9 to now recite DNA fragments are improper in form because the deleted term "genomic" does not appear and is not indicated in the claims deleted. Also, delete replacement of "genomic DNA fragment" by "simply-DNA fragment" represents an expansion in scope including "synthetic oligonucleotides" (see response dated 5/13/00 at p. 4), that would require further consideration and search.
